Providing Specialized Nursing
& Advanced Pulmonary Care

Weekly Family-Guardian Communication

...from the Interdisciplinary Care Team – 8/6/2021

In our effort to maintain open and honest communication, we will continue to send you updates about all Respiratory Viral Outbreaks and the Novel Coronavirus (COVID-19). We hope you find this information helpful.

Resident Update

Our Residents are well, in their typical state of health.

Staff Update

We have three direct care Staff Members that have tested positive for COVID-19. Nursing has contacted our Resident Family-Guardians if their child was impacted by this.

Resident/Staff COVID-19 Testing

Weekly testing of Residents and **ALL** Staff regardless of vaccination status is underway until further notice as directed by The NJ Department of Health (DOH). We are in an outbreak status for COVID-19 due to positive cases. All testing for this week so far is negative.

Compassionate Care Visitation

Indoor visitation is available by appointment only seven days per week at specific times. We continue to follow all necessary infection prevention and control measures and all guidance from the Center for Disease Control (CDC), Center for Medicare and Medicaid (CMS) and The NJ DOH working toward a safe reopening for all of our Residents, Families and Staff Members. Due to our current outbreak status and physical space limitations the availability of appointments is revised temporarily until the outbreak is declared over. We will keep you updated. The overall challenge for VPF is maintaining the safety and health of our Residents. Half of our pediatric population is under the age of 12 and not eligible to be vaccinated at this time. Most of the newer guidance is about vaccination of Residents and Staff and permitted activities depending on the vaccination status. When our Residents and Families are fully vaccinated they may have more opportunity and freedom to participate in a variety of unrestricted events, activities. **We highly encourage our Families to consider vaccination for all Family Members age 12 and older.** Video visitation continues to be available for our Families via Skype, Facetime and Zoom. Please contact a VPF Nursing Supervisor or Social Work for more information and to schedule an appointment for visitation with your child.

Children's Hospitals & Related Institutions

Phased Reopening of Long Term Care Facilities

Following the NJ State reopening plan and all of the guidance recommendations from CDC and CMS, The NJ DOH is revising Executive Directive No. 20-206 that established mandatory procedures in order for us to safely reopen to **ALL** visitors and resume normal operations. We continue to comply with this Directive and all appropriate guidance and will communicate to our Family-Guardians any change. Although, The NJ State Government recently lifted “The State of Emergency” declared last March at the start of the pandemic the Executive Directives issued remain in effect for all NJ Long term Care Facilities until further notice. This is necessary to continue to protect and promote the safety and wellness of all individuals residing in long term care facilities.

COVID-19 Vaccine

We continue to offer the vaccine to all of our eligible Residents age 12 and older. We are happy to report that 80% of our Staff are vaccinated and the number of our Residents receiving the vaccine is increasing. **Although the vaccine is not mandatory to receive, it is highly recommended for all individuals to prevent the spread of COVID-19.** The vaccine is readily available at various sites in the community for all NJ Residents. A NJ State toll free Hotline can be contacted at 855-568-0545 to assist you with general questions about the vaccines, eligibility and location of vaccination sites or you can visit the NJ Hub Website: [covid-19.nj.gov](https://www.nj.gov/covid-19). **We highly encourage all of our Staff, Residents and Family-Guardians to receive the vaccine.** If you or any of your family members that visit VPF have received the vaccine, we would appreciate a copy of your vaccine card to help us safely plan for your visitation.

Our Commitment

Resident and Staff wellness and safety is our top priority. Please be reassured we continue to follow all core standards of Infection Prevention and Control measures partnering with the NJ DOH to maintain wellness. We are happy to report that we are in full compliance with all the federal and state rules, guidelines and standards of care specific to Infection Prevention and Control. Since the start of the pandemic we have had 5 deficiency free Infection Control Focused Surveys by the NJ DOH. On 7/13 we had an additional unannounced Infection Control Focused Survey by the NJ DOH and happy to report once again are in full compliance with all standards and regulations. Throughout the pandemic, our team has worked tirelessly to remain up to date on all current COVID-19 data and recommendations from science and medical experts to make the best decisions for our Residents, Families, Staff and Community. **As of October 15, 2021 we have decided to mandate that all of our Staff be fully vaccinated for COVID-19.** We feel this is our responsibility to our community and a necessary step in ending this pandemic.

Our Appreciation

A heartfelt thank you for your continued patience, support and trust in us. We respect and appreciate our partnership with you.

Important Communication Update

Our automated Family-Guardian notification system is in place that is linked to our Electronic Medical Record. We are sending all urgent messages from our automated system to your cell phone or landline. In the near future, other notifications we typically mail will be sent by email if you have an email address. We will continue to mail information for those without an email address.

Be well.
